

4th International Marine Protected Areas Congress IMPAC4 Chile 2017

List of Accepted Contributions – Poster

Refnum	Last Name	First Name	Title
D6K0ZZY1	Aburto	Jaime	An unprecedented Participatory-Action-Research and collaborative work is now developing between scientist and some local fishers organizations
IFPD9PCC	Aceves-Bueno	Erendira	Informing the design of Territorial Use Rights in Fisheries (TURFs) from Marine Protected Area theory
7TD8S2PE	Alarcon	Daniela	Extractive Reserve of Canavieiras, Bahia, Brazil: Management Agreement
R8T3JOLN	Alvarado	Juan	Composition and biomass analysis of the reef fish community in Cocos Island National Park after 13 years of total fishing closure
L4VW423Y	Andrade	Claudia	Assessing benthic secondary production in marine communities of the Magellan region: an approach to consider for management purposes
2O6I0SM5	Andrade	Solange	Life history of the Mottled scorpionfish (<i>Pontinus clemensi</i>) in the Galapagos Marine Reserve, Ecuador
5AKUAXX7	Angarita-Jimenez	Luz Elvira	Protection of <i>Polymesoda artacta</i> in via salamanca island park as a strategy for the development of communities and coastal marine ecosystems - Colombian caribbean
GG88IVNM	Apprill	Amy	Remote sensing of Patagonian large whale health using drones
9LSVDWO4	Arroyo	Maria Elisa	Digital material synthesized on the MCPA-MU Pitipalena Añihue and work experience

A2SXV125	AUBINET	Maxime	for effective management, reflecting the following components: Underwater landscapes :To Reveal and make perceive in order to raise awareness on the underwater world, an assistance in the management of a protected marine area
GVACR6OS	Bahamonde	Paulina	Alien species at freshwater and marine fjords in Patagonian ecosystem: assessing the pressures over the ecosystem
PLVPECNF	Brooke	Samantha	National Wildlife Refuge system Case studies will be used to describe the application of each of these tools and their benefits
UESW9BOP	Brutto	Luiz Fernando Guimarães	A participatory construction of a Term of Commitment (Management agreement), between the management agency of Tamoios Ecological Station
E51G959W	Cajiao	Daniela	Tourism monitoring for decision making process: Lessons learned and challenges from the Galapagos National Park
OCXN37OU	Caldas	Juan Pablo	Present state of fishing activity and its resources in an area with different conservation scenarios: an approach based on the traditional knowledge of artisanal fishermen
GVACR6OS	Cantergiani	Carlos	Approach to a predictive model for blue whales (<i>Balaenoptera musculus</i>) sighting based on satellite oceanographic measurements, between the Chilense ecoregion and Corcovado Gulf (42 ° - 45 ° s)
I5YFF491	Chagas, Z.	Nilton	Human and fishery techniques in the lagunar portion of jequiá da praia marine extractive reserve, Alagoas, Brazil
GVACR6OS	Chiang	Gustavo	No boundaries, threatens to subpolar environments and marine mammals by POPs and trace metals. A case study from <i>Globicephala melas</i> stranded in Chilean Patagonia
DTFOFXGWb	Choi	Jongkwan	Registering a patent about methods of <i>S. siliquosa</i> restoration
DTFOFXGWc	Choi	Jongkwan	The restoration of Swinhoe's storm petrel on Chilbal-do(island), IUCN category I
DTFOFXGWe	Choi	Keyhong	The restoration of endangered species of anthozoans

HN58QGIL OW082QTI	Christel Christel	GEORGES GEORGES	Marseille, a Coastal Metropolis Co-sustainable management of uses in the MPA of the Calanques National Park: example of ecological moorings
3FZNO423	CORBIER BARTHAUX	Constance	Small island organizations milo program aims at assisting islands wishing to take action towards better management of resources and biodiversity protection.
H1M04W9P	Descroix- Comanducci	Florence	A High Quality Whale Watching® certificate in the ACCOBAMS Area
6GU7GIRU	Díaz-Cabrera	Ernesto	Evaluating connectivity patterns between Easter Island (EI) and Motu Motiro Hiva Marine Park around Salas y Gómez Island (SG)
11MQ04FU	Duron	Sophie- Dorothee	French mpa monitoring policies, surveillance and control of human activities in mpas author's name : sophie-dorothee duron 2013 representative of french ministry for environment
HL1FOPMZ	Falcão	Patrícia	Protected Marine Areas and Local Conflicts: case study Abrolhos Marine National Park, Brazil
4LFFUH7N	Fernández Rivera- Melo	Francisco	Lecciones aprendidas al implementar zonas de manejo integral con objetivos de conservacion y aprovechamiento sustentable en el golfo de california, México
3PP1509X	Figueiroa	Apoena Caixto	Ecosystem Services (ES) language an efficient way to seek common understandings among the various sectors and interests of society aiming conserve biodiversity
3ZO6BHV7	Figueiroa	Apoena Caixto	Space planning is an extremely important instrument
0SAWFF7X	Franke-Ante	Rebeca	Coral reef conservation in tree protected marine areas of the Colombian caribbean coast
X2JLXTDX	García	Ana María	Spatial evaluation of collision risk between small cetacean species, fin whales and shipping in Mejillones Bay (23°S, northern Chile)

ACIQMU8G	Garcia Borboroglu	Pablo	Behind the scenes of the largest UNESCO Biosphere Reserve designation in Argentina.
5JOM2X7W	GARNIER	Sabine	Large diversity of marine mammals in the Agoa sanctuary (French MPA in the Caribbean Area),
XA047GW1	GONZALES VARGAS	ALEJANDRO	Punta Coles área austral de la Reserva Nacional Sistema de Islas, Islotes y Puntas Guaneras y su relación con la pesquería artesanal en Ilo - Moquegua – Perú
8UVYM627	Gonzalez	Victoria	Integrated, Innovative and Participatory Management for the Natura 2000 Network in the Marine Environment
6E0397B0	Gonzalez Mendez	Julieta	Proposal for a planning and integrated management of the coastal areas in the Ciénaga of Zapata, Cuba
QP9VK64H	Gribaudo	César	Importance of the Marine-Coastal Monte Loayza Conservation Unit, Patagonia, Argentina, to promote the local development of ecotourism
D9JEIJLO	Grillo	Ana Carolina	Sustainable recreational scuba diving through monitoring
3OZIL9OZ	Gutierrez	Débora	Georeferenced videotranssect monitoring to assess the effects of climate change on reef environments in Fernando de Noronha - Brazil
OONXC5G5	Henriquez Leschot	Carolina	Using innovative direct-action tactics and our ships and crews, to investigate, document and confront illegal activities
CZPKEGMH	Hernandez	Mariana	Assessment of Hammocks (Petenes) Resilience to Sea Level Rise Due to Climate Change in Mexico
VZA1AND6	Hillier	M.Joy	Deep-sea MPAs present particular challenges for management
ZEYGOYYX	Howe	Steffan	Impacts and management of two species of overabundant native urchin in reef and seagrass habitats in Victoria's marine protected areas
3OQS3L59	Jeffery	Matthew	Nearshore Marine Protected Areas (MPAs) offer one of the best opportunities for conserving

UNBM5F92	Jenner	Lisa	Natural England has been working on revising the content and presentation of its MPA Conservation Advice
SP18VKHH	katia	abbad	Gouvernance of Marine Protected Areas: The story of Taza National Park, Jijel
DTFOFXGWa	Kim	Jinseok	The marine mammals, Finless porpoise monitoring in oil spill damaged area
DTFOFXGWd	Kim	Geonseok	The marine ecosystem experienced by VR contents
ESSU7XU2	Kotomatas	Spyros	Establishing a co-managed Marine Protected Area in Greece to conserve the critically endangered Mediterranean monk seal, <i>Monachus monachus</i> , through a participatory process: the Gyaros MPA case study
DTZC2TQF	Landea	Rafaela	Mapping current and future risks to the globally significant marine habitat of Chilean Patagon
DTFOFXGWg	Lee	Moo Hyung	The restoration projrct for the habitat of endangered crabs
334SUDBQ	Leggott	Conor	A Legacy of Engaging Youth with MPAs through Advocacy
UWDJMTNB	Leite	Daniela Torres Ferreira	The challenges of financial implementation in large-scale project in Brazilian coastal and marine protected areas – GEF Mar
JQVP1LYZ	Leite	Kelen	Full Protection Marine Protected Areas and Society: A Brazilian example of engagement and support
52XOTPTW	Lopes Ramos	Karina	Marine protected areas for pinnipeds in Brazil: what we have so far and what we can expect
59YD35JH	Lopez-Ercilla	Ines	SCUBA divers and snorkellers find marine protected areas highly attractive for this activities.
598IP7JS	McConney	Patrick	Capacity for socio-economic monitoring and adaptive governance in the eastern Caribbean
8TVZ84VI	Moity	Nicolas	The use of traditional ecological knowledge of fishermen and naturalist guides to uncover the distribution of <i>Manta birostris</i> in the Galapagos Islands: preliminary results

WAJFR6TD	Montenero	Kelly	Dry Tortugas National Park: Developing a Fishery Dependent Survey as an Indicator of Marine Protected Area Success.
DTF0FXGWf	Noh	Hyungsoo	The restoration project for eelgrass, major species on marine ecosystem
NRD5FR1P 3KT3SW2G	Nuñez-Parraguez Ochoa	Iver Mariela	Amerbs y equidad de género Financial Sustainability of the Fishing Replenishment Zones of Guanaja, Bay Islands
O3KV3FS5	Ortiz	Ivan	The Biodiversity Monitoring System of the GEF/PNUD project Archipelagos of Southern Cuba.
EI02H3XJ	Pena	Maria	Capacity building for participatory socio-economic monitoring at Caribbean MPAs: A glimpse at SocMon Caribbean
S07S4KET	Pena	Maria	Close to 20 years of capacity building for enhanced participatory socio-economic monitoring at Caribbean MPAs: A glimpse at SocMon Caribbean
74OKY2C8	Perera-Valderrama	Susana	Coral reef condition of two marine protected areas in the Caribbean: Guanahacabibes National Park, Cuba, and Costa Occidental de Isla Mujeres-Punta Cancun-Punta Nizuc National Park, Mexico
JXKJBGPU	Perez Matus	Alejandro	Human impacts and environmental variability in kelp forest communities in Central Chile: Exploring the ecological role of Territorial Use Rights for Fisheries
3238YARB	Phénia	MARRAS - AÏT RAZOUK	Overview of the Aichi 11 target implementation in the French marine environment and key figures of progress
IU9S02QY	Piccolo	Natali	Overcoming Barriers for Community-Based Fisheries Management: the implementation of the Fish Forever Program in Brazil
N63DGF92	Quintana	Yasmin	The role of small-scale fisheries in the construction of MPA's in Tropical West Africa
VHXZX1NN	Rodrigue	Mark	Space Invaders - Responding to Marine Invasive Species in Victoria's MPAs
LJSQKGOA	Sanquer	Roland	How Educational Marine Managed Areas extend from Marquesas Islands to a global network?

OHRPBWHI	Sayigh	Laela	Passive acoustic data collected between 2012-2016 at several locations in southern Chile
5GKYK2UZ	Smith	Danielle	Planning, negotiating and establishing MPAs in ABNJ: Lessons from two regimes in the Southern Ocean and the North-East Atlantic region
TEANUYND	Soto	Eulogio	Key ecosystem functions and processes in areas beyond national jurisdiction
YIPX9RPI	Sys	Jean-Francois	Estimation of density of fish assemblages within MPAs: Comparison of Closed and Open Circuit Scuba diving for Underwater Visual Census within the Calanques National Park
FNHHP5JS	Tabilo Valdivieso	Elier	PROPUESTA DE PROTECCIÓN DE LA CADENA DE HUMEDALES COSTEROS EN LA COSTA ÁRIDA DEL PACIFICO SUDAMERICANO
J42BXW92	Tedesco	Erik	Ecosystem-Based Management: a case study of the Marine Park Recife de Fora, Eastern Brazil
97O5CCLF	Thomas	Felipe	Apoyo para la formulación de un Plan de Gestión Estratégico para el Área Marina Costera Protegida Mar de Juan Fernández (AMCP-MU AJF)
YOYFO54V	Tischer	Marina Consuli	As different categories of Marine Protect Areas provide different degrees of conservation management
KBMQ9KA8	Vanhaecke	Delphine	eDNA monitoring in Chilean MPAs using the Scan-Bio Aqua kit
2XTNWXSS	Warren	Joseph	A cost-effective, non-invasive method for identification of critical habitats of pelagic organisms (foraging %u201Chot spots%u201D) in the Golfo de Corcovado
IYXNP3PA	Yeemin	Thamasak	Assessing resilience to bleaching and ecosystem services of coral communities in the Gulf of Thailand
F4V9ATL6	Zeller	Aurore	Marine mammals in French MPAs: status and challenges
